

News from the Helotes Heritage Association

Dear Readers,

Preservation of the cultural, environmental, and historical heritage of our community does not come easily. It takes dedicated individuals willing to put in the time and effort necessary to make this happen.

We are at a time when you can step up and help Helotes meet the challenges that the future holds, and as we all know too well, these challenges are formidable and many. Members to the City of Helotes committees are appointed (or reappointed) every two years, concurrent with the election of the mayor. Now is the time to step forward to offer your services.

To help encourage public participation, the HHA website has posted both a copy of the application and a link to the City of Helotes webpage. If you go to the City of Helotes webpage, scroll down to the bottom to get to the application link.

Be a part of the future of Helotes. Help make these committees as strong a voice in the preservation of our community as possible.

Sincerely,
Ron Green
President, HHA
