

News from the Helotes Heritage Association

Dear Readers,

The 3rd Annual Greater Edwards Aquifer Alliance Leaders Summit is scheduled for this Saturday at the Price Center in San Marcos. The objective of the summit is to plan for the future of the Edwards Aquifer and the Hill Country. Many of the 42 members groups in GEAA (including HHA and the Hill Country Planning Association) will be represented. .

Specific discussion topics at the Leaders Summit include:

(1) What would be the optimal future for our region and how can we work together to achieve our goals? (2) How can GEAA support your organization's goals and issues? (3) Setting GEAA projects, programs and governance for the next three years.

HHA is keenly interested in developing a regional strategy to protect the contributing and recharge zones of the Edwards Aquifer and will use the opportunity of the Leaders Summit to advance this cause. Please advise HHA if there are other relevant issues you would like presented at the summit, we will be glad to take your message.

Sincerely,
Ron Green, President
Helotes Heritage Association
