

News from the Helotes Heritage Association

Dear Readers,

The following letter to the editor was sent by Mike Lewis to the Echo. It clearly describes the threat our community is facing from developer-driven interests. HHA strongly supports smart, controlled development, however, decisions made in the sole interest of quick profit with no regard for the long-term future of our community will quickly turn Helotes into just one more city run over by senseless sprawl.

These are challenging times. Helotes is at a cross-roads where one road leads to sustainable sensible growth where our cultural heritage is preserved and the other leads to senseless development driven by those looking solely to make a quick profit with no regard to the future of Helotes.

Please read Mike Lewis's editorial and do what you can to make sure the correct path is taken.

Sincerely,
Ron Green
HHA, President
