

News from the Helotes Heritage Association

Dear Readers,

The San Antonio chapter of the Sierra Club has organized the following panel discussion on the *Greening of San Antonio*.

You are cordially invited to attend the next general meeting of the Sierra Club on 'The Greening of San Antonio.' Kathe Doran of CPS Energy, Larry Zinn of the Mayor's office, Bill Barker of Solar San Antonio, Steve Colley of the Metropolitan Partnership for Energy, and Jerry Morrissey of the Sierra Club will all participate in a panel discussion of what's being done, what will be done, and what can be done to make San Antonio's future sustainable. This may mark the first time ever that such a discussion has taken place.

The meeting, free and open to the public, will take place Tuesday, June 17, at 7 pm, at the Witte Museum (back meeting room). For more information, please email or call Loretta Van Coppenolle, Sierra Club conservation chair, at livewithnature@msn.com or 210/492-4620. Hope to see you there!

Thanks!

Loretta Van Coppenolle

Sincerely,
Ron Green, President
Helotes Heritage Association
